BILLING CODE 4910-13-M

National Highway Traffic Safety Administration

[Docket No. 95-71; Notice 2]

Bridgestone/Firestone, Inc.; Grant of Application for Decision of Inconsequential Noncompliance

Bridgestone/Firestone, Inc. (Bridgestone/Firestone) of Nashville, Tennessee, has determined that some of its tires fail to comply with the labeling requirements of 49 CFR 571.119, Federal Motor Vehicle Safety Standard (FMVSS) No. 119, "New Pneumatic Tires for Vehicles Other Than Passenger Cars," and has filed an appropriate report pursuant to 49 CFR Part 573, "Defect and Noncompliance Reports." Bridgestone/Firestone has also applied to be exempted from the notification and remedy requirements of 49 U.S.C. Chapter 301—"Motor Vehicle Safety"

on the basis that the noncompliance is inconsequential to motor vehicle safety.

Notice of receipt of the application was published on August 21, 1995 (60 FR 43491). This notice grants the application.

In FMVSS No. 119, Paragraph S6.5(b) specifies that each tire shall be marked with "[t]he tire identification number required by Part 574 [Tire Identification and Recordkeeping] of this chapter." In Part 574.5, Paragraphs (a) through (d) specify the information which must be placed on the tire. Paragraphs (a) through (c) specify information relating to the identification of the manufacturer and tire size. Paragraph (d) specifies information relating to the specification of a code for the date of manufacture. Paragraph (d) states that the date code "shall immediately follow" the information specified in Paragraphs (a) through (c).

During the period of July 17, 1994 through April 24, 1995, Bridgestone/Firestone produced 19,563 tires which had incorrect serial numbers. The sizes of the subject tires are 8.25-20, 9.00-20, 10.00-20, and 11.00-20. In the incorrect serial numbers, the date code is at the beginning of the number rather than at the end, as required. The tires are labeled as "384 V52JEFD" instead of the required "V52JEFD 384." The date code is "384."

Bridgestone/Firestone supported its application for inconsequential noncompliance with the following:

First, all tires manufactured in the affected size/type meet all requirements of Standard 119 except tire markings pertaining to [S6.5(b)].

Second, if there would be a need for the consumer or manufacturer representative (BFS) to read the serial, sufficient information exists to define the manufacturing location as Bridgestone/Firestone, Inc., Mexico City, Mexico. This situation has been reviewed with our Registration company and can be adequately handled.

Thirdly, a principal need for tire serials is identification for recall purposes. In the event of any future recall of these tires, the recall letter would explain the transposed marking.

No comments were received on the application.

The primary safety purpose of requiring serial information on tires is to enable identification of them for the purposes of notification and remedy in the event they are determined to be noncompliant or incorporate a safety-related defect. If it is necessary to recall the tires that are the subject of this application, enough information exists on them to trace the tires back to their plant of manufacture. Further, Bridgestone/Firestone would explain

the transposed marking in the recall letter to the owners so that they can properly identify the subject tires. Because the noncompliance does not cause the tires to be unidentifiable, NHTSA does not believe it will adversely affect safety.

In consideration of the forgoing, NHTSA finds that the applicant has met its burden of persuasion that the noncompliance herein described is inconsequential to safety. Accordingly, its application is granted, and the applicant is exempted from providing the notification of the noncompliance that is required by 49 U.S.C. 30118, and from remedying the noncompliance, as required by 49 U.S.C. 30120.

(49 U.S.C. 30118, 30120; delegations of authority at 49 CFR 1.50 and 501.8)

Issued on November 9, 1995.

Barry Felrice,

Associate Administrator for Safety Performance Standards.
